

Thank you for your interest in Jamsill Guard®!

The Jamsill Guard® is an adjustable sill pan flashing for exterior doors and windows designed to prevent water damage from window and door leaks. Injection molded of high impact polymers that will not deteriorate over time, the product has been time tested for over 25 years with over 2,000,000 sold!

Inexpensive and easy to install, the Jamsill Guard's simple design is much more user friendly than comparable products on the market today. Jamsill Guard's multiple piece design allows the installer on-site adjustability to fit variance in the rough opening and is bonded together in the field with P.V.C. cement.

The Jamsill Guard® is available in 8 different depths to accommodate most door and window applications in either 2x4 or 2x6 construction and is not visible after installation.

- 1 1/8" depth - used primarily for aluminum and vinyl windows.
- 2 3/8" depth - used primarily for vinyl windows.
- 3 1/4" depth - used primarily for vinyl patio doors.
- 3 5/8" depth - used primarily for vinyl and aluminum patio doors.
- 4 1/8" depth - used for doors & windows.
- 4 9/16" depth - used for doors & windows.
- 6 9/16" depth - used for doors & windows.
- 6 13/16" depth - used for doors & windows

Jamsill Guard® sill pans incorporate features we feel make it the premier sill pan product line in the world. Features include:

- Sloped weep areas located beneath the Jamb-to-Sill joint that direct moisture away from areas that could be damaged by it
- Durable weather resistant materials; impervious to rust, corrosion, galvanic corrosion electrolysis, and corrosive coastal areas
- 8 different depths to accommodate most door and window applications in either 2x4 or 2x6 construction
- Easy installation with the multiple-piece adjustable design.

Compare the price of a Jamsill Guard® sill pan to the cost of a new floor, carpet, or wall or window, and you will see it only makes sense to use Jamsill Guard®.

Please feel free to contact us with any questions. We look forward to hearing from you.

Sincerely,

Jamsill, Inc.
